A Year in Review

As we come to the end of 2023, let's look back on this exciting year in healthcare credentialing. Overall, we saw significant shifts in technology and a much-needed focus on physician health and wellness.

Physician Satisfaction starts with Onboarding

In October 2023, AMA Chief Experience Officer Todd Unger interviewed Rebecca Lauderdale, MD, physician well-being champion at Hattiesburg Clinic about the steps her health system has taken to support early career physicians with innovative onboarding initiatives.

Confidential Care to Support Physician Health and Wellness

In October 2023, AMA Group Vice President, Michael Tutty, PhD, MHA, FACMPE and AMA Senior Attorney, Daniel Blaney-Koen, JD discussed the problematic questions in medical licensing, employment, and credentialing applications pertaining to disclosure of mental illness or substance use disorder (SUD). We've captured some highlights from that conversation.

Smarter Healthcare: How AI Is Changing Everything

As AI, or augmented intelligence (as the AMA refers to it), enters the mainstream, it's critical for healthcare stakeholders to understand how to best leverage these innovations for the benefit of physicians and their patients.
